

1 Person Crew

If your production only requires a small crew, we have a vast amount of experience in filming interviews and other situations with a single camera operator.

On many occasions, multiple people are not required and would only add to the bill. At The Production Company, our camera operators are trained to manage a number of roles whilst on set. These roles include:

Filming: Interviews, General Views, Events, multicam

Sound: Radio mics and camera mounted microphones

Lighting: Studio lighting, mood lighting for interviews

Please contact us with any production request:
